

Learn the latest information about HPV vaccination, recommended strategies to increase coverage, and new regulations affecting how clinicians at school-based health centers can help protect more young people from HPV-related cancer.

## OBJECTIVES

- Explain benefits of HPV vaccination.
- Describe school-based health center (SBHC) strategies to promote HPV vaccination.
- Identify effective communication strategies to improve HPV vaccination coverage in your patient population.

## TARGET AUDIENCE

This program is designed for health care professionals: MDs, NPs, PAs, nurses providing services for children and adolescents in NYS School Based Health Centers. This conference will address issues that affect the patient, provider, school staff and SBHC staff.
